DESCRIPTION AND OPERATION

The Globe Model H-1, H-2 and H-3 Alarm Check Valves are used in wet pipe fire sprinkler systems. They primarily serve a dual purpose in that they prevent a reverse flow of water through their bodies (non-return) and also provide for the use of a hydraulic fire alarm which is not dependent upon an electrical power supply for its operation. Through the use of a hydraulic retard chamber a time delay is provided to eliminate potential false alarms caused by fluctuating water supply pressures. Where constant pressure water supplies are used the retard chamber (time delay) is not necessary. By incorporating the use of electrical pressure switches, other supplemental alarms, annunciators etc. may also be used.

A unique feature found on the Globe 3", 4", 6" and 150mm Alarm Valves is the clapper being hinged to the handhole cover for extreme ease of removal for inspection and service.

Globe Model H-1, H-2 and H-3 Alarm Check Valves may be installed in both vertical and horizontal positions and trim can be provided for both variable and constant water supply pressures in either of these positions.

The body of the Alarm Check Valve is constructed of high tensile strength cast iron having considerable ductility to reduce damage in field handling.

All interior operating parts are machined from highly corrosive-resistant alloys, each having high strength and good wear resistance.

Rubber parts are of selective materials which have good abrasive resistance and long life expectancy in terms of resiliency.

APPROVALS

• cULus Listed  • LPCB (LPCB Ref. No. 147b/01, 147b/02, and 147b/03)
• CE  • FM Approved  • NYC - DOB MEA 325-91-M

TECHNICAL DATA

• Water Working Pressure Rating - 175 psi (12 bars) (see below for more specific rating approvals).
• 4" and 6" Models "H-1" & "H-3" cULus Listed, LPCB and CE Approved with DIN Class 16 flanges has a pressure rating of 16 bars.
• Factory tested hydrostatically to 350 psi (24 bars).
• Equivalent feet of pipe: 3" Valve = 12.2 feet, 4" Valve = 9.7 feet, 6" Valve = 17 feet

GLOBE® PRODUCT WARRANTY

Globe agrees to repair or replace any of its own manufactured products found to be defective in material or workmanship for a period of one year from date of shipment.

For specific details of our warranty please refer to Price List Terms and Conditions of Sale (Our Price List).

ORDERING INFORMATION

- Quantity
- Model Number
- Size
- Pressure Rating
- Factory Trimmed and Leak Tested Hydrostatically or Loose Trim for Customer Installation.

Refer to Globe's Alarm Check Valve Installation and Maintenance Guide (Bulletin A.C.V.I.M.) for trim set-up, installation instructions, and maintenance.
